

Project Demo Planning

Date	02 July 2026
Team ID	XXXXXX
Project Name	Credit Card Approval Prediction
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the Credit Card Approval Prediction System is presented effectively by showcasing all major functionalities in a clear and organized manner. This document outlines the demonstration plan, including the sequence of the presentation, key features to highlight, live prediction workflow, and the responsibilities of each team member during the project demonstration.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction & Problem Statement	Explain the challenges of manual credit card approval and the need for machine learning-based prediction	2	Member 1
2	Project Overview & Architecture	Present the system architecture, technology stack, and overall project workflow	2	Member 2
3	AI Caption Generation Demo	Demonstrate applicant data entry and real-time credit card approval prediction	3	Member 3
4	Hashtag & CTA Generation Demo	Show the generated risk audit report and stored prediction history	2	Member 4
5	Technical Implementation	Explain the Flask backend, Random Forest model integration, and data preprocessing workflow	2	Member 5
6	Results, Future Scope & Conclusion	Present project outcomes, future enhancements, and conclude the demonstration	2	Member 2

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Explain the challenges of manual credit card approval and the benefits of machine learning
2	Solution Overview	Describe the Credit Card Approval Prediction System architecture, workflow, and technology stack
3	Live Feature Demonstration	Demonstrate applicant data entry, approval prediction, and risk audit report generation
4	Q&A Session	Answer evaluator questions and discuss future enhancements
